# September 2011

### Youngblood's New Release Incredible Wear Gel Eyeliners

These gel liners are foolproof and easy to use. The intensely coloured, long-wearing formula glides on smoothly like a liquid liner with the precision of an eye pencil. Non-irritating, very water resistant and budge-proof.

They contain Lecithin (emollient) to aid in hydrating skin, Iron Oxides to provide a rich pigment, Methicone (silica) to create a silky smooth application and Vitamin E (antioxidant) to help protect the skin barrier's oil balance.

It is applied close to the lash line using an angled brush, and can be removed using an oil-based eye makeup remover. Available in five different colours at Raptcha'u for \$32.

**Eclipse**  
A classic black

**Espresso**  
A rich dark brown

**Midnight Sea**  
A deep cobalt blue

**Black Orchid**  
A deep purple with an iridescent sheen

**Galaxy**  
A dark grey with silver shimmer

Do you suffer from a low pain threshold when having your legs waxed or tending to your lady garden? Tired of tears welling in your eyes during your appointment?

Researchers from the Universities of Toronto and Southern California have discovered that pulling a tough and dominating pose during waxing or anything else as painful can help!

Stand with your legs wide and your arms stretched out, as opposed to a curled up or reserved position, and your brain will be tricked into feeling in control. It will also increase your testosterone levels, which will evidently improve your tolerance of pain!

### Youngblood Artiste Palettes

**Valued at \$415**, purchase this and your favourite

Youngblood loose mineral foundation for **only \$145!!**

*Love wearing colour but don't know where to start? Try applying some coloured liner to the inner rim of your eye for some extra glamour.*

## ASAP's Moisturising Daily Defence SPF30+

ASAP moisturizing daily defence SPF30+ is scientifically formulated to replenish essential moisture, leaving skin soft and supple, while providing broad spectrum protection from harmful UVA/UVB rays, which can aid in the prevention of premature skin ageing. Hyaluronic Acid is an effective anti-ageing ingredient which binds moisture to the skin and helps it to retain moisture. It also supports the formation and maintenance of collagen while increasing softness and smoothness of the skin. Hyaluronic Acid is the skin's natural water retainer, therefore it can boost the skin's moisture content and help prevent moisture loss. Niacinamide hydrates and soothes the skin and promotes elasticity. Niacinamide has been shown to protect the skin's immune cells during UV exposure, alleviate early indicators of skin damage and assist with the reduction in appearance of pigmentation. It also plays an important part in the prevention and treatment of some signs of premature ageing by improving hydration and increasing skin ceramides. Anti-oxidant properties assist in counteracting the effects of free radical damage.

RRP: \$49

Be one of the first five people to book and pay for a microdermabrasion this month (\$105) and receive this product **FREE!**
